Description:

Residencial BALCÓN DE HABANERAS is made up of 56 homes with 1, 2 and 3 bedrooms with 2 bathrooms and a wide typology of homes, duplexes, penthouses with solariums with large terraces and stunning panoramic sea views or private terrace in the case of ground floors with direct access to the communal areas.

The homes are built with the best materials, carefully selected to ensure low maintenance, sustainable construction, always very respectful of the environment and in compliance at all times with the Technical Building Code.

The Residencial BALCÓN DE HABANERAS is a complex of innovative design whose conception is based on providing all the homes with a similar quality regardless of the place they occupy within the building. To this end, a large structural opening has been created in the block that faces onto Avenida de Habaneras and which allows all the homes to have a visual connection with the avenue.

This large opening is in turn a powerful viewpoint that operates from the communal outdoor area and allows light and sea breezes to enter the interior space of the swimming pool and its surroundings, a huge communal balcony where you can enjoy the wonderful sunny days that we have all year round on our Levantine coast.
